Educational Liability

Reducing risk, improving safety

Our two-hour Educational Liability seminar and accompanying CD-ROM will help head teachers and staff to identify and manage risks in their school.

Our solution to the growing 'blame culture' in schools

As specialists in risk, Zurich Municipal is only too aware of the growth in liability claims faced by education today.

To help you combat the rise in 'blame' incidents, we have used our experience to construct a unique learning tool to help raise awareness of liability risks and potential injuries, accidents and incidents faced by schools.

In a stimulating, interactive, two-hour introductory seminar, we'll demonstrate our exclusive Educational Liability CD-ROM. It shows potential risks and provides control measures, shows case studies and sample risk assessments and includes the checklists and forms teachers will need to complete their own risk assessment.

All the information teachers need

Encourage your schools' head teachers and senior staff to attend the seminar and use the CD-ROM to improve their own risk awareness. We have made the programme easy to follow and each school attending our seminar will receive their own copy to take away.

Educational Liability Seminar and CD-ROM

Includes:

- understanding and identifying risks
- case studies
- step-by-step risk assessment instructions
- school trip assessment examples
- advice on how to implement control measures
- checklists and forms
- Q & As.

The Educational Liability seminar will help you reduce the potential for costly liability claims against your schools and make schools a safer place for everyone.

Please speak to your Zurich Municipal Risk and Insurance Consultant or email info@zurichmunicipal.com to find out how to book your seminar.
